GovProposalPro

BY Contract Bros

Welcome to the CEO Seat.

GovProposalPro Account Setup Instructions

Congratulations on securing your GovProposalPro license. You have successfully bypassed the bureaucracy of federal contracting.

To ensure the highest level of security for your proprietary bids and subcontractor data, your private command center requires a secure, encrypted login.

Please complete your setup immediately by following the 3 steps below:

1 **Initialize Your Account.** Click the secure link below to open the GovProposalPro provisioning portal.

→ govproposalpro.com/access

2 **Create Your Keys.** Enter the **same email you used to purchase on Whop** and create a secure password. This will be your master login for the GovProposalPro software.

3 **Tailor Your Command Center.** Tell us about your business and experience level so we can customize your workspace. A member of our team will reach out to confirm your access.

Deployment Date: Sunday, October 18th. On Sunday, October 18th, you will receive an automated email granting you full access to the live software. You will use the exact email and password you created today to log in and begin generating your automated proposals.

If you purchased the Enterprise Edition, your VIP Onboarding Concierge will be reaching out separately to collect your business details for your Done-For-You SAM.gov registration.

Welcome to the empire. Let's get to work.
